EXPERIENCE THROUGH PERSONAL PROJECTS:

TWITTER CLONE:

- Built a real-time social media platform using React to mimic the look and feel of Twitter.

-Implemented dynamic loading and async loading techniques using AJAX and websockets to allow for seamless updates without the need for page reloads

-Utilized Firebase as a serverless backend to store and retrieve data in real-time

-Ensured cross-browser compatibility by testing the website on multiple browsers and devices

-Made the website mobile-friendly using responsive design techniques

-Applied custom styles using Tailwind CSS, a utility-first CSS framework

PEBBLE-AI

This project provides an AI-powered voice assistant for the Pebble Time watch. The assistant listens for your voice input, sends the transcriptions to either OpenAI's GPT, Anthropic's Claude, or Google's Gemini API, and displays the AI's response on the watch

DOGGOGRAM:

-Developed an Instagram clone using the Next.js framework and the TensorFlow.js library.

-Utilized machine learning techniques with TensorFlow to analyze images.

-Implemented a dynamic and real-time user interface using Firebase Firestore as a serverless backend.

-Utilized the Google OAuth API to handle user authentification.

-Created a visually appealing and user-friendly interface that accurately replicates the design and functionality of the Instagram app with Tailwind CSS

BOPIFY:

-Developed a Spotify clone using the Next.js framework and the Spotify API

-Implemented a seamless and intuitive login process using the Spotify OAuth API

-Replicated the design and functionality of the Spotify web player, including an updated and modern user interface

-Demonstrated expertise in modern web development technologies, including API integration and user authentication

LIBRARIES / FRAMEWORKS

React and NextJS
Proficient

Express - JQuery - Bootstrap
Working knowledge

Three.js and React-Three-Fiber
Proficient
Recoil, Zustand and Redux
Proficient

TOOLS / PROGRAMS

Git | npm | webpack | Firebase

Visual Studio Code | Adobe XD | After Effects

Photoshop | Linux | Vim | Gimp

SKILLS

HTML *Proficient*	CSS / Tailwind *Proficient*
JavaScript/Typescript *Proficient*	Node.js
C *Proficient*	REST APIs *Proficient*
Unit Testing / Test-Driven Development	Python *Proficient*

NON-TECH EXPERIENCE

Order Fulfillment Associate
Amazon
10/2019-10/2020

Performed inside an Amazon warehouse, selecting, packing and shipping customer orders at a fast pace to ensure customers received their packages on time.
